KIND WORDS FROM A PAST ATTENDEE

- "At the hectic pace of daily life, so many minutes and opportunities Are missing or permitted to pass us. Regardless of my Present jet-lagged condition, I really did not need this moment to become among these. I Couldn't Allow the days to melt Weeks without no sending you a notice.
- The last few times were profoundly meaningful to me personally and that I really Have one to thank. I discovered a fellowship that has been absent and also a feeling Of belonging that totally took me sweet surprise. However, more importantly, I Eventually feel my voice starting to take shape and, even more to the point, I Have the guts to pursue it. You lead by mild, courageous example and, by Exposing your vulnerability, let us perform exactly the same.
- As creatives, we often invest a lot of time sifting in Self-doubt, anxiety, or indecision. I'd be remiss if I neglected to reevaluate even That the merest shadow of them in the mind concerning the restorative final few days. Now you have a natural gift for advice and also a wholehearted approach I Texture is lacking among several photographer-educators.
