Blender Market - Marble Run Kit:

The Marble Run Kit is a comprehensive toolkit for creating marble run courses in Blender, inspired by the iconic CUBORO set.

Designed for marble run enthusiasts, it simplifies the creation process with features like ready-to-run physics simulations and an intuitive "snap to increment" function for easy block assembly. The kit includes over 170 unique blocks with photorealistic wood and mono-color materials, plus ongoing updates with new packs.

Contents:

- **Full Kit:** Includes wood and mono-color sets, demo courses, textures, and renders, along with contributions from creators like Moby Motion.
- **Marble Machine Collection:** Features multiple marble machines with access to all future releases.
- **Mini Kit:** A smaller version with essential blocks and resources.

The kit empowers users to bring creative ideas to life with ready-made tools and expand their courses over time.
