Available in 5.1 Surround and Stereo formats, these recordings and designs have lots of punch at the front and feature a large soundscape of a nearby mountain. Blaster it with massive boom sound effects created by artillery, dynamite, and C4, perfect for making bombs, grenades, cannons, and everything else that explodes. The detail, depth, sharp transients, and high-quality LFE channel make these sounds the perfect designs for your film trailers, TV games, and more.
