25 Luts Cinematic Film Looks Colorgrading in Video & Video Color grading

This pack comes with 25 unique and original LUTs (Lookup Table) (also called 3DLUTs)

- 25 .CUBE files
- 25 .3DL files
- One PSD file previewer that works with Photoshop (add your image and instantly displays the thumbnail previews for 25)
- 1 pdf file with directions for using Photoshop

What are LUTs? The LUTs are preset that contain specific instructions for remapping the colors of your video or photo to various and specific colors in order to give the desired look. In essence, it replaces each pixel with a different color

What do LUTs accomplish? They instantly alter the appearance of a video or photo It works with both photography and video. These LUTs were inspired by some of the most well-known cinema designs and are designed to keep skin tones intact when they are used for color fixing.

very simple to use. They are basically One-Click Presets.

Who is able to use the HTML0 Color Search?
