EASY TO USE

- No installation needed
- No need to guess - Simply place your footage above it and use the blending mode indicated in the file name

WHAT IS THIS PACK?

We've made it easy to organize and label your files so you can quickly drag and drop. With just a few clicks, you can quickly find the right file and transform your project.

All assets are recorded in high-quality 4K and easily rescaled to your sequence.

Drag & Drop your video to the Blend mode and select "Overlay".

TECHNICAL CHARACTERISTICS

After many experiments and test rolls, we have reached a point where you can drag and drop your footage to your timeline to get THE VHS LOOK.
The VHS package has everything you need to make sure your projects are successful.

MAXIMUM MODULAR FLEXIBILITY

This pack contains multiple options for flares, glitches, textures, and overlays to create a film look that is as flexible as possible.

You can cover every pixel with stunning film texture, no matter what resolutions you need for your projects now or in the near future.
