A COLLABORATION WITH ANNIE RUBY

As a resounding celebration of natural landscapes, the Annie Ruby presets are Daring, flexible, and Also a Nonstop homage to Stunning settings.

Each preset is in itself exceptional, yet together they superbly combine the loud color with yelling glazy film quality. You are going to receive hot creamy undertones, both silent and loud contrasts, magnificent red and yellowish colors, lively pops of blues, soft whites, along with gentle shadows. Although brimming with character, every preset is not difficult to tweak and concentrates on maintaining authentic skin tones while improving whatever relaxing setting you end up shooting.

If you're searching for a motive to"Go", this is it. Go chase these misty blue mountain ridges! Savor those iridescent gold desert sunsets! Frolic from cadmium yellow wildflower areas! And enjoy the rosy blush on your cheeks!

Annie Ruby Presets includes 15 color presets, two BW presets, and 9 custom Creative Profile's (please see below for compatibility).

Before and after pictures below demonstrate how every preset manipulates a picture with equal white balance and exposure.

All these presets ONLY utilize Lightroom Classic CC (version 7.3 or later), Lightroom CC (version 1.3 or later), and Adobe Camera Raw (version 10.3 or later). For earlier versions, upgrade your editing software to satisfy the necessary specifications.

Please be aware these presets are made for RAW images only and therefore are compatible with all the software variations above.

All these are Desktop Presets(NOT Mobile Presets).
