Description

In this class, we will be taught how to make a lyric video using After Effects. We will make a lyric music video that is the fun Fall fashion.

We will employ various methods and make this video in a Falling style.

- We will make the moving background and then repeat it.
- We will design the text, and then we will be taught how to extrude it using After Effects.
- Then, we'll animate the text
- We'll develop particles that create an illusion of text falling even if it is in the middle of the center.
- We will make use of the lyrics we wrote to create all the words for the entire song.
- In the final part, I will demonstrate the process of rendering your videos using Adobe Media Encoder.

Course Content

- 1- Introduction
- 2- Create the background
- 3- Create and animate the text
- 4- Create lyrics
- 5- Tips and tricks
- 6- Thank you

What is Create Lyric Video In After Effects?

Creating a lyric video in After Effects involves using the software to synchronize animated text with the lyrics of a song, adding visual elements, and possibly incorporating effects to enhance the overall visual presentation. A lyric video is a popular way to visually represent song lyrics and share them with an audience, especially on platforms like YouTube.
