The Speedline Stamp Set - a fun and versatile set that works with Procreate.

Make your drawings, letters manga, and comics by using these Brush stamp sets of 135! Install the brush set in Procreate and enjoy. These brushes will bring incredible effects to your artwork and will speed your workflow since you won't need to draw the effects by hand.

It is easy to add beautiful backgrounds to your letters or cool effects to mangas and comics. It is also possible to use stamps to embellish your images, or use stamps for digital scrapbooking, or collages.

In the set are:

- 1 x Procreate stamp brushes set, containing 135 elements
- 135 elements PNG formats with a transparent background. It can be used with the majority of photo editing software.
- 135 elements JPG file format, with white backgrounds. Compatible with all photo editing software.

Note: The brush set works only in Procreate for an iPad only! It isn't compatible with photoshop or any other program. If you don't have Procreate, you may use the supplied jpg or png files for your designs.
