

Aescripts – Volna v2.4.8 (Win, Mac)

2025-02-10 16:51:33 [label](#) [我要反馈](#) [下载页面](#)

Aescripts – Volna v2.4.8 (Win, Mac): Volna is an innovative Stroke plug for After Effects, with built-in arrows, sound-canceling, Gradients, and a mix tool.

Volna Is an innovative stroke plugin for After Effects.

Volna could draw on strokes Along the course with a lot of potential styles.

- Arrows at the end of the course with flexible parameters.
- Taper strokes.
- The gradient along the course.
- Noise distortion.
- Wave distortion.
- Points manner.
- Multi-line style with sound canceling for each line. Could be used to find chalk-style strokes.

Combination Shapes

Additionally, Volna can combine unique avenues from two-layer masks to create a new form. The Plugin brings intermediate lines involving masks and easily blends from 1 route to another.

- Randomize traces measures.
- Noise distortion.
- Wave distortion.
- Gradient randomize.
- Gradient offset.

v2.0:

- New Gradient UI
- New Ramp UI
- Cross Gradient
- Lines Gradient
- Lines Opacity Ramp
- Ramp Thickness
- Ramp Distortion Amplitude
- Ramp Alpha Amplitude
- Points Distribution Ramp
- Lines Distribution Ramp
- Points Rotation Noise
- Points Rotation Ramp

New Changes:

- fixed an occasional crash when using a sprite in timeline frames mode
