1. Make sure you are in the color tab.

2. Then enter the creative tab. You want to apply the LUTS here so you can control the intensity.

3. Click on the drop-down menu that is labeled 'LOOK' and click on browse. From here you will need to locate the LUT on your device and then hit open.

4. The LUT will now be applied and from here you can control the intensity and adjust any additional settings that you may require.

It is crucial that you can control the intensity as every shot is different and sometimes shots may need a little extra from the LUT or a little less, so play around with them!
