This trend of fluid, gritty texture is something I keep seeing and love. I created this easy-to-use texture kit. You can add any photo to make a retro, grainy texture. This is great for packaging, web design, and moody social media quotes.

I have included a variety of retro colors, from dark to bright and acidic. Each action has a different outcome, so experiment and have fun! (If you're a bit more experienced, adjust the gradients to get other color options)

Tip: I love natural textures like leaves, marble, and clouds. This kit creates amazing trippy textures!
