Halftone brushes are ideal to shade, add the look of lettering, and also create pop-art-inspired vintage designs.

Brushes set of 30: four liner brush and 26 halftone brushes (all the examples in the above)

The brushes are aligned to the screen, so you can rotate the canvas to change the pattern's direction. You can combine and stack different textures to create completely unique halftones!

The Halftone pattern is aligned this means that you can take the pen off of the screen, change colors and keep the pattern that you have laid down!

If you wish to alter the size of the pattern by hand, go through your **SCRATCH SETTINGS, GRAIN SCALE**

Brushes are available in .brushset format. (Installing to install the .brushset files, users will require iOS 11 and Procreate version 4.1 or greater)

- Compatible with Procreate
