Emily Lucarz's action set Enchantment to Work with Photoshop and Photoshop Elements was created to provide you with the chance to create something truly magical. The set includes Emily's Secret," which is her signature look. Create stunning backgrounds outdoors or indoors. The set includes everything from simple adjustments as well as gentle skin actions to stunning mattes, hazes, and gorgeous blurs. Emily has created the Bring it to Forward action to keep your images blurred, but also allow your subject to remain minimally removed. It's her most viewed action from her Dream in the Color set, and it is available in Enchantment too. Enchantment contains 35 unique actions that will assist you in creating magical images. Enchantment was created as an action that is a companion set to Dream in Color. It can create stunning outdoor photos or produce soft, fuzzy, or matte indoor photos. You are in complete creative control of every action. Each of Emily's actions was created for use together. Combined.
