is a comprehensive toolkit designed for document viewing, processing, printing, and scanning with support for TWAIN and WIA. It boasts a powerful document conversion engine, enabling fast and accurate conversions between formats such as DOCX to PDF and TIFF to DOCX. This SDK supports reading, cleaning, writing, and converting documents in over 100 formats, including TIFF, PDF, DOCX, ODT, XLSX, DXF, RTF, DICOM, SVG, JBIG2, and JPEG 2000.

Additionally, **GdPicture.NET Document Imaging SDK Ultimate** offers advanced capabilities for OMR, OCR, MICR, document recognition, and barcode reading and writing, covering both linear and 2D barcodes. Users can annotate images and PDFs within Windows and web applications, benefit from color detection, and utilize the MRC engine for image and PDF compression, all supported by an unrivaled hyper-compression engine and a high-fidelity PDF/A converter.

This all-in-one toolkit eliminates the need to purchase multiple products, as GdPicture.NET provides comprehensive PDF support and manipulation of various Office document formats, CAD support, image processing, document imaging, scanning, barcoding, printing, OCR, and forms processing. The SDK includes .NET WinForms, WPF, ASP.NET, and COM/ActiveX user controls, allowing developers to seamlessly integrate its capabilities into their applications, regardless of the development environment. **GdPicture.NET Document Imaging SDK Ultimate** supports C#, VB.NET, Visual Basic 6, Delphi, C++, Microsoft Access, Visual FoxPro, HTML, JavaScript, VBScript, ASP.NET, and PHP, ensuring broad compatibility and ease of use.
