### Franzis - DENOISE projects 5 professional:

DENOISE projects 5 professional is an advanced image noise reduction software designed for photographers working in challenging lighting conditions or with high ISO settings. It utilizes cutting-edge artificial intelligence to automatically analyze and eliminate image noise while preserving detail and sharpness.

- **Artificial Intelligence Engine:** New AI-powered noise reduction for optimal results.
- **RAW Development Module:** Enhanced with an AI section for advanced noise management.
- **Real-Time Color Module:** 10-layer color editing for precise adjustments (PRO only).
- **Focus Peaking Display:** Visual aid for critical sharpness and focus detection.
- **Automatic Denoising:** Adaptive one-click denoising for instant results.
- **Selective Denoising:** Brush-based selective noise reduction in local adjustments.
- **Expert Mode:** Fine-tune results with 126 expert filters for professional-grade output.
- **Wide Camera Support:** Compatibility with 1,292 camera RAW formats.
- **4K Interface:** Modern, clear, and user-friendly design.
- **Sensor Error Correction:** Fixes sensor-related artifacts automatically.
- **Astrophotography Optimization:** Noise stacking module for complex astro shots.

### Professional Edition Exclusives:

- **Advanced Color Module:** Real-time color module with 10 levels.
- **Denoising Quality Modes:** Balanced, Pro, Pro+, Pro Infinity.
- **Enhanced RAW Development:** With AI-powered noise reduction tools.
- **VR Mode:** Masking support in expert mode and RAW module.
- **Photoshop & Lightroom Plug-ins:** Seamless integration for professional workflows.
- **Batch Processing:** Efficiently process multiple images simultaneously.
- **LUT Module:** Apply LUT image styles for creative looks.
