Fortunately, Photoshop effects can replace almost any light, sight shadow, color, or settings in the same file! Here's an example of a window reflection effect photo effect that puts any additional photos on top of the glass. All natural laws of physics were saved to make the result genuine and professionally looking.

What's inside?

- High-quality PSD file;
- 4500x3000 px, 300 dpi;
- Help file.
