

## Nomadic George – CineLook 4 DaVinci Resolve PowerGrade + LUT (2023)

2025-02-10 16:42:47 label 我要反馈 下载页面

**CineLook 4 DaVinci Resolve PowerGrade + LUT (2023):** Get this distinctive deep-blue and orange hue for your footage using this unique PowerGrade with LUT bundle. Ideal for a range of footage, the bundle gives a perfect look for a filmmaker or colorist. This bundle can be purchased for just USD 5.00. You can also pay what you'd like for it to show your support for my YouTube channel. Every purchase allows me to continue making content for those who want to increase their skills in color grading. Thank you for your continued support!

### WHAT IS A POWER GRADE?

Powergrades Powergrade is a structure of nodes that can produce an appearance or effect. DaVinci Resolve Powergrades are fully customizable and are not destructive, which is why they are popular with colorists seeking flexibility and customization. When you apply the Powergrade to an image, you can view the complete node's structure and change every parameter in the node.

### CAN I USE POWERGRADES WITH PREMIERE PRO OR FINAL CUT?

No. Powergrades are tree nodes built within DaVinci Resolve and meant for use in DaVinci Resolve only.

### CAN I USE THIS POWERGRADE WITH ANY COLOR SPACE IN DAVINCI RESOLVE?

This PowerGrade was developed using a DaVinci Wide Gamut color space with the Rec.709 output. Although these settings are suitable for various projects, if you are familiar with DaVinci Resolve color management basics, you can utilize this PowerGrade using an alternative timeline color space. It may be necessary to make some adjustments when using a different color space.

### CAN I USE THIS FOR COMMERCIAL WORK?

Absolutely. The PowerGrade is free for your and commercial projects, including but not limited to commercials, films & Ads, Wedding Videos, Social Media Content, and any other project that requires color editing.

### DO I NEED ANY THIRD-PARTY PLUGINS?

No. The effects of this PowerGrade are built-in DaVinci Resolve OFX plugins, which means you don't have to install third-party plugins. While you can use these PowerGrades using the accessible version of DaVinci Resolve, you'll use Resolve's Studio version of Resolve to use effects like Film Grain or Noise Reduction. Other effects aren't accessible to users of the Free version.

### Video Tutorial Subtitles Available in:

Arabic, Chinese, Estonian, Filipino, Finnish, French, German, Greek, Hebrew, Hindi, Hungarian, Icelandic, Indonesian, Italian, Japanese, Korean, Norwegian,

### Using the LUT (Premiere Pro, Final Cut, After Effects, Etc. ):

- The LUT is a Rec.709 LUT. If your footage is Log, you can convert your video to Rec.709 with a Color Space Transform in DaVinci Resolve or manually adjust the primary colors using Premiere Pro, Final Cut, or After Effects.
- Adjust your white balance to ensure the LUT color aesthetic has been applied appropriately.
- Change the contrast and saturation as you'd like.
