After Effects Job Info **List Exporter** (aka AEProjectI.L.E.) Is a tool designed to help users by offering a simpler summary of an After Effects project file?

AEProjectI.L.E. Provides you access to a huge amount of Project info in easy to look at lists that may be sorted by column or hunted. Locate mismatched frame rates quicker, assess much data for persistence, confirm 3rd party plugins which are used, see which plugins are missing, see asset folder places readily, ascertain where and when yields were routed, and much more.

- "Organize Project Assets" The popular After Effects Saved out of 2013 that's been employed as a very simple button. (Organizes job assets into a simple folder structure allowing for quicker comprehension of a project build. The footage is put into folders based on file extension, compositions are divided from Precomp, and high-level master comp standing. Solids and Nulls are all grouped in the Solids folder.)
- "Cleanup Assets" Another popular After Effects verse out of 2017 called "conSOLIDator" was executed and given a little more power. (Can conSOLIDate all your job Solids and Nulls to as few as you can. Additionally, today eliminates duplicate footage, along with fresh footage resources from the job.)
- "Delete Unused Effects Plugins****" is a quality that can review all plugin impacts on essay layers and ascertain if they're busy, or even. If inactive, they'll be removed.
