Absolutely 265 unique handpainted floral and leaf elements as well as 9 additional arrangements. The images are available for download in PNG Format with transparent background. It is perfect for use in nearly every software. Create your own logo to use for invitations, scrapbooking or stationery... whatever you might imagine! Every image should be at least 1000 pixels with 300dpi.

Unique images that have transparent backgrounds can add some look for digital albums, Christmas greeting cards, and portfolios of photography. These digitally designed images can be combined to create your personal logo or used to create personal stationery. The possibilities are endless whether you're creating online images or pintables.
