Presentation With Jason: Jeans (Videohive 12494058) - AE Project

2025-02-10 16:41:02   label 我要反馈   下载页面

Display the attractive 3D-looking character in your work.

The sleek and clean character lip-syncs, and the presentation is synchronized in your own voice. Flexible movements and images shown by the characters provide an impressive pull on viewers. The complete 3D character is able to be added to your project. This is done using After Effects.

You can customize the coloring of the character in the way you'd like. Create natural-looking character actions by combining motion and changing the timing and lip-syncing in accordance with the audio voice.

This elegant character will make your video more noticeable.
