How to Use LUTs in Adobe Photoshop:

1. In Photoshop, open an image. Photoshop (Optional) creates a duplicate of the image on which you want the LUT to be applied.

2. From the menu, select the following options: Image > Adjustments Colour Lookup.

3. In the first box Select Load 3D Lut... from the pop-up menu.

4. Choose from your LUTs from the ones you've downloaded.

5. Select OK for the application of the LUT.

If you applied an LUT on a second layer apply the layer's opacity to regulate the extent of the result.
