下载页面

It's similar to Snap To Floor is similar to the free Drop To Floor plugin here on the site , with the exception that it's now live! It is possible to rotate the model in the scene, and the model will maintain its lowest point along the Y-Axis. This allows animating objects to be animated like rolling objects breeze!

compatible with the R15-R26

Stay down!

You can move your objects around and enjoy the magic as it remains on the surface!

Realtime Feedback

While modeling, your model will be updated in real-time, ensuring that your structures remain solid as you make adjustments.

START OFF!

Let your objects move along the floor interactively. This is a basic Xpresso setup to connect Z's position with Cubes ' rotation. Snap to Floor did everything else!
