Some Recommendations

For the best results using this Photoshop Action, it is recommended to make use of high-resolution photos. The suggested resolution is 2500px by 3500px, 300 dpi,(portrait) and solid color image. It is highly recommended..

The Layers Organization

The most attractive characteristic that is a part of Photoshop Action is the fact that it helps you keep your layers separate. You can then continue to work on your image quickly while personalizing it to suit your preferences. Every Photoshop Action has its individual layer layout.
