**3d-kstudio Fusion 0.9.237.130 for 3ds Max:** Fusion is a brand new 3ds Max plugin that offers an intuitive interface allowing parametric modeling of geometries with varying levels.

With Fusion software, you can easily make and edit objects such as fences, stucco moldings, bridges, etc. Any geometry could be distributed along the path and merged to form a complex continuous stucco molding or another complicated object.

Fusion is a brand new 3ds Max plugin that allows the parametric modeling of geometric shapes with varying degrees of complexity.

Fusion software lets you quickly design and alter objects such as fences, stucco moldings, and bridges. Any geometry could be spread along a path and bonded to make an intricate continuous stucco molding or another intricate object.

Once the project is complete After you're finished, save your model's blanks in the library so that you can use them again in different projects.

The plugin makes it easy to manage the size and the number of your items, the distance between them, and how they are dispersed.

Modeling railings using Fusion parametric plugin for 3ds Max

You can also animate many parameters and add some life to creating objects.

Fusion is a helpful plugin with a simple interface designed to make the process of creating complicated models using parametric modeling that makes your designs more flexible and allows you to be more creative.

- 3DS MAX COMPATIBILITY: 3ds Max 2014-2024
- SUPPORTED RENDERER: Any
- LIMITATIONS for DEMO Modifier stacks can be collapsed. Is disabled. It doesn't permit rendering.
- RenderNodes Unlimited render nodes included (model is recommended to save with the full version)
