SOUND EFFECTS

"Sinister Drones" is an incredible and distinctive collection of terrifying and cinematic sounds. Ideal for productions that require terrifying or haunting sounds that give a hint of creepy insanity! The majority of sounds are captured in abandoned locations abandoned factories undergrounds, abandoned warehouses as well as playgrounds, halls and the corridors of old-buildings, and later layered and altered using digital and analog synthesizers. Filled with dark, deep organic textures and evolving emotional atmospheres, from the dark and grimy to mysterious and dreamlike. From haunting ambiances to lower world textures, desolated drones to chaotic ambiances disturbing drones to industrial sounds Doomful soundscapes to pulse-like backgrounds, changing textures to haunting tone modulation ambient soundscapes to multi-layered haunting drones. Ethereal pad, dark and pitch-black soundscapes, atmospheric ambiances to strange drones, and many more - everything you require to complete your soundscapes and evoke the terror in your listeners.
In total, you receive 100 powerful drones ready to unleash destruction - packed with analog synthesizers, sound design exercises along with field recordings. They vary between 30 and 150 seconds long and have a playtime of more than two hours. Each sound is hyper-detailed and mixed and altered, they can be easily used in your productions. Each sound was recorded at 24 bits or 96kHz to guarantee the highest quality required for cinematic productions of today. They are accessible in 24-bit 44.1kHz which can be connected to any production that demands high definition sound. Ideal for producers who want to achieve a "dark cinematic feeling" in their productions.

"Sinister Drones" is suitable for horror films as well as darker music is also great for producers wanting to add a cinematic look to their films. It is perfect for Cinematic Composition, Film Scores and Short-movie Scores Trailers, Commercials, Trailers Documentaries, advertising Background, and World music. It is also suitable for productions between Dubstep up to DnB, Drumstep to IDM and would like to mix it up with something powerful and distinctive - this pack includes all the elements you need for your next great production. This pack will allow you the freedom to make instant dark and cinematic moods and paranormal-themed textures in a matter of minutes!
