Blender Market - Pastelini 1.0 - Pastel Painting:

Pastelini is a Blender tool designed to convert 3D scenes into pastel-style artwork, ideal for quick concept creation, especially for landscapes and environments. It offers fully procedural workflows, intuitive controls, and real-time render capabilities in Eevee.

- **Ease of Use:** Apply Pastelini to your models, adjust colors, and lights, and create traditional pastel-style artwork.
- **Real-Time Rendering:** Works with Eevee for immediate previews and animations.
- **No UV Mapping Needed:** Fully procedural shader adaptable to any resolution.
- **Lighting System:** Use a customizable RGB lighting setup to achieve various effects.
- **Animation-Friendly:** Simple sliders for animating colors and textures.

What's Included

- **Shader & Presets:** 18 material presets for various styles.
- **Darth Manager Addon:** An N-Menu tool for streamlined material management with thumbnails.
- **Sample Scenes:** Pre-made field, winter, and forest landscapes.
- **PDF Documentation:** Detailed usage guide.

Why Choose Pastelini?

- Supports illustrators, animators, and concept artists.
- Plug-and-play setup with lifetime updates.
- Royalty-free license for commercial use.

Additional Notes

- Works exclusively in Eevee.
- Includes animation attributes within the shader.
- Expandable for advanced users with node editing skills.

Perfect for those seeking a digital approach to traditional pastel art with the added benefit of animation.
