Making your style pop is now easier using the Graphic Styles Panel of Adobe Illustrator. In this course, we'll use boring, plain icons and shine to ensure they won't be overlooked. We will show you how to make different designs using an edgy button effect to an old-fashioned style, and neon-colored glow. At the end of the day, you'll have a solid foundation to ensure you can create an icon set that is unique to use in the future and for your current projects.
