

Lightroom Presets – Look Pack 3 By Preset Bunker

2025-02-10 17:13:59 label 我要反馈 下载页面

These presets were created using Lightroom's powerful profiles. They allow you to change the intensity of your photos using the main sliders.

These are great for style shoots, portraits, blogger's images, style shots, lifestyle, travel, and fashion Instagram posts.

These presets can be used with Lightroom Mobile (Free No-Subscription) or Lightroom Classic/CC with an active subscription.

INTERNET INCLUDES

- 10 x DNG files
- 10 x XMP files
- 2 x Profile Files XMP

If you aren't sure if the preset is right for you, please message me with your photo and I will send you a preview.

Please Note

- Only digital files can be sent, no physical files
- This plugin is compatible with Lightroom Mobile without or with a subscription, or Lightroom Classic / Lightroom CC with an active subscriber.
- Access to Lightroom CC for mobile (apple or Android) is required.
- It will work with JPEG and RAW files. For the best results, use RAW files whenever possible.
- Download link for unzipped files included
- You may see the DNG files as blank until you import them
- Each preset has been tested on multiple images before being released. However, they are only a starting point. You may still need to adjust the exposure or white balance of your photo. The results you get may not be the same as the ones shown in the examples.
- These presets were created by me from scratch and are based on my personal photography. I have more than 25 years of experience as a street and portrait photographer.
- These presets can be used for personal purposes only. However, commercial projects may not be allowed.
- Digital items cannot be returned or exchanged.
- Either the paid or free mobile version must be installed on your device.
- You will need a subscription to Lightroom CC / Lightroom Classic Desktop in order to use the XMP files
