T-shirt package mockups can be used as scene generators. They can make your website or printed graphics look stunning within a couple of minutes of work. All you have to do is drag and drop high-quality original images into pre-made PSD files, arrange it however you want, and then replace it with your own graphic, and then add some emotional vibe over color settings for your photo. There is no reason to not love these images.

### Gfx plugin details of T-shirt Mockups & Packages (PSD, PDF)

The product is in **Photoshop category** , for more information about this post you can click on the home page link in the sidebar.

### Hero images, scene generator and object isolation, color presets, and much more

The Hero images are irreplaceable in the current web design trends. Everyone uses them as an important visual element whenever a user visits the website. This is why we created a lot of original, professional, and gorgeous images which you can incorporate into stunning and striking website headers and sliders. It is possible to combine them without any additional retouching of images. In addition, we create the images in high-resolution that is also suitable for graphic design to print designs.

It doesn't take proficiency in Photoshop to create hero images. Simply drag and drop objects that are isolated in the base file that we have prepared, select one of the backgrounds and textures we have already created, and adjust and blend professionally designed colors to suit your needs and you're accomplished. Easy as pie. :) Even more, certain images included in the pack can be edited mockups. You can also add your branding design to mockups to enhance the presentation of your work.

### Main characteristics of T-shirt and the package hero scene generator

**View from the top** The images are all taken from the top perspective. It's ideal for the display of your t-shirt's design. It is suitable for web-based stores like t-shirt online shops as well as designer websites advertising, banners, ads, and even to showcase the work you've created on social media. It is also great for printing images such as flyers, posters editorials, and much more. The idea was to create an image generator that makes it the quick and easy creation of professional prints that delight your clients. It takes only five minutes. :)

**100 images isolated** T-shirts (in three colors) and a variety of t-shirt package labels, and much more - all the items we select to mix any image with T-shirts.

**9 pre-made and customizable backgrounds and textures** 8 textures as well as a color-changeable solid backdrop (choose the color that you like) Change and select the right textures to match your image of the hero. We pick and make these to stay in style with the latest trends in web design. Then you can choose another. You can also use some of your images as backgrounds if you wish. It's all possible.

**8 color presets of photographic colors that include Black & White, vibrant colors, cool, warming dimmed, bleached 70teez, and more - set the mood however you'd prefer.** By turning on/off layers using color presets, you can create the mood you want to create in your work. You can also combine these and alter their intensity to create a brand new color setting that we didn't create and will display your work with the most pleasing image.

**A collection of mockups for branding using smart objects** such as hoodies, t-shirts packages, labels If you're a graphic designer looking to showcase your work, this is the place for you. Over double-click smart object you can put your design in a few minutes. Drag and drop your design into the smart object then save it. Your gorgeous design will appear more stunning with our generator for scenes.
