Rise & Falls - Zenhiser**:**

The sound of the rise and fall can be found in nearly every genre and is a frequently demanded collection by our clients. We do not want to disappoint you, so this is it. A huge collection that is a swoop rises, drops and whips, swooshes, and slow snaps to bring fresh life to your bar drops, breakdowns dropouts and smoothouts at the end of tracks. This is a collection everyone should own and will not realize how you got by without these until you download the pack and test them.
Ideal for all producers, remixers, TV and film, games soundscapes, post-production, and sound scapers.

What is Rise & Falls - Zenhiser?

"Rise & Falls" is a sound sample or preset pack created by Zenhiser, a company known for producing high-quality sound libraries and sample packs for electronic music producers. These packs often contain a variety of audio samples, loops, presets, and sound effects designed to inspire and enhance music production across various electronic music genres.

In the context of music production and sound design, "Rise and falls" typically refers to a collection of audio elements that create tension and dynamics in a track. These elements are commonly used to build anticipation and transition between different sections of a song, such as from a verse to a chorus or from a breakdown to a drop in electronic dance music (EDM) genres.
