What are Light Lines Transitions?

"Light Lines Transitions" typically refer to a category of video transitions used in video editing and post-production. These transitions involve the use of light streaks, lines, or patterns to smoothly switch between two video clips or scenes. Light line transitions add a dynamic and visually engaging effect to video content, creating a sense of movement and flow.

Overall, light line transitions are a creative tool in the video editor's toolkit, allowing for visually captivating scene transitions that add a unique and dynamic element to video content.
