The **Blood Action Trailer** is a versatile After Effects CS5 project template featuring a modern, dynamic design with a strong atmosphere and an organic blood effect.

How to use templates to design trailer ads with the strong and organic atmosphere in After Effects?

You can use "Blood Action Trailer" to design your project.

This 45-second trailer is available in Full HD (1920x1080) and HD (1280x720) resolutions, making it an excellent choice for trailer promotions, video productions, game intros, presentations, product showcases, and portfolios. It includes 12 text placeholders, 12 photo/video placeholders, and an exclusive blood layer in PSD format. The template is designed for simple and fast customization.

"Blood Action Trailer" Samples:

Package information

This After Effects project file, compatible with versions CS5, CS5.5, and CS6, was published and last updated on 3 July 2013.
