sear

## MotionVFX - mGrid:

mGrid is a versatile split-screen layout plugin designed for Final Cut Pro.

It maintains your clips' audio, timing, and applied effects while offering effortless layout management for various applications such as video calls, online events, business presentations, and virtual collaborations.

With 37 FCP effects and 14 FCP titles, mGrid provides split-screen presets and customizable options to create clean, engaging compositions without complex workflows. Compatible with macOS 10.15.7 and later, it supports both Apple silicon and Intel chips, catering to horizontal or vertical aspect ratios.
