"Aescripts Flow" Samples:

Flow allows users to create, apply, and share custom motion curves easily, using familiar CSS animation-timing functions.

It includes 25 predefined curves based on Robert Penner's Easing Functions and offers features like an easy-to-use curve editor, the ability to read values from AE, save and apply curves as keys or expressions, and import/export libraries. Flow's responsive design adapts to various interface layouts.

Installation is straightforward with the Aescripts+aeplugins ZXP installer, and recent updates include new presets, enhanced control point logic, and several bug fixes.
