Refine and perfect your videos with Premiere Rush through a variety of editing options. Enjoy consistent editing capabilities whether you're using the mobile or desktop version of the application.

Once you've imported your video clips, easily retain the highlights, trim away slow or uninteresting segments, rearrange scenes, and incorporate audio, animated titles, or motion graphics to enhance your content.

TIMELINE EDITING

Once your footage is in your Premiere Rush project, navigate to the timeline for adjustments. Seamlessly integrate extra clips —videos, images, graphics, or music—by splitting, repositioning, or trimming directly on the timeline.

SMOOTH TRANSITIONS

Enhance clip transitions for a seamless flow. While a simple cut is standard, elevate your video with transitions that gracefully phase out one clip and introduce the next, creating a polished transition from shot to shot.

CUSTOMIZABLE TITLES

Add text overlays and animated motion graphics effortlessly. Customize font, style (bold/italic/underline), size, and color. Edit text easily and adjust the title and graphic templates' position, scale, and rotation directly on the Preview monitor.

PROFESSIONAL MOTION GRAPHICS

Discover a variety of professionally designed built-in Motion Graphics templates in Premiere Rush. Access customizable animated titles, lower-thirds, transitions, and graphics from Adobe Stock, all conveniently within the application.

AUDIO ENHANCEMENT

Import music or audio clips into your Premiere Rush project to enhance the auditory experience. Alternatively, record voiceovers directly on the timeline, providing flexibility in tailoring audio to your project's needs.

COLOR ADJUSTMENTS

Enhance your video clips effortlessly with Premiere Rush's versatile color presets. A simple click applies a specific look, and you have the flexibility to fine-tune the intensity for a personalized touch. Utilize additional editing tools to refine further and customize the color of your footage.

SPEED CONTROL

Take your videos to the next level by adjusting the speed to highlight impactful moments or add drama. Premiere Rush makes speed adjustments easy, allowing you to either speed up or slow down your footage with precision.

TRANSFORMATIVE TOOLS

Experiment with a variety of editing tools to transform your clips creatively. Adjust position, height, width, or opacity, and leverage cropping, rotation, and the unique feathering feature to blur edges, directing focus to the center of the video frame.

Premiere Rush provides a user-friendly platform with powerful features, catering to both beginners and experienced video editors.
