- Well Organized Project

What is a Text Block Tool?

The "Text Block Tool" in an After Effects (AE) project refers to a feature or element within the project that allows for the creation and manipulation of text blocks or text layers. In Adobe After Effects, text layers are used to add and animate text within video compositions or motion graphics.

Text is a fundamental element in many video projects and motion graphics, and Adobe After Effects provides a robust set of tools for creating and animating text in creative and engaging ways.
