Sikky Beats Verified Bounce Drum Kit (WAV):

Verified Drums is an exclusive collection of 2000s-style drums that were inspired by the best "super producers" of the time.

In deciding to create this album, we noticed that both listeners and producers are attracted by the sound and blast of the old!

What we came up with was a remarkably imaginative source of vibrant and distinctive sounds and samples that have a hint of nostalgia in each sound.

There's no doubt that a drum bounce can take an ordinary beat and transform it into something unique. Simply drag and drop any of the included loops for percussion and observe your track bounce!

They're among the most resonant drums our drum makers have ever created and are certain that your drum beat will stand out.
