Gumroad – Dog Portrait Tutorial & Brush Pack:

It includes the following:

- A time-lapse film of the process of painting (without commentary)
- The tutorial was written in English (pdf), which walks you through my thinking process in creating this piece and the techniques I employed.
- Brush pack that contains all of the brushes needed (13 in all) and is compatible using photoshop CC or Procreate. I can't assure compatibility with other painting programs.
- Layered PSD file
