**Unreal Engine - Military Items:** This pack comprises essential equipment for armed forces in both sci-fi and modern settings, featuring a range of items including a ballistic shield, expandable stun baton, landmine, grenade, multi-purpose tablet, binoculars, mobile radio set, combat medic bracers with display or injection attachment, medical hypospray, and flashlight with an extendable truncheon.

- PBR materials (metalness workflow)
- Customizable master material for all meshes included
- Several animations available for most items
- Static mesh versions are provided for all skeletal meshes
