Kindred Presets – The Storey Collection – True Colors (XMP)
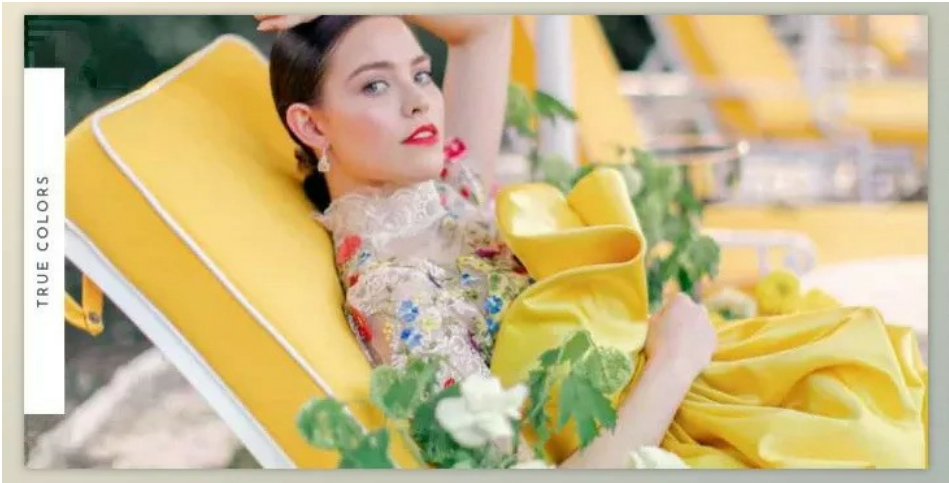

2025-02-10 16:50:03　　label 我要反馈　　下载页面

True Colors just keep on shining with this innovative, brand-new "proset" in partnership with Charla Storey. It was created by Charla Storey with her Portra 400 images to mind True Colors adds beautiful vivid color on film and digital images alike. This application was created due to Charles's extraordinary love of colors. Greens and skin tones are just...heavenly! Unique to any other tool, the union of a preset and a profile Your Kindred "Prosets" allows you complete control over your edits from top to the bottom. They're also extremely versatile because they can be used with film scans and digital images as well. In essence, we're obsessed with them and believe that you will be as well!

This program works to Adobe LR Classic version 10 or higher and LR, CC, and ACR 13 and higher.
