**VHS Effect for Photoshop CreativeMarket - 7139085:** VHS Effect for Photoshop is an image template that includes smart layers and an effects builder. These are applied by switching layers off and on. This effect in Photoshop allows you to style any image to appear like the image of the videotape within just a few minutes. It is also possible to add any text to your image that resembles the font of the video camera. This is useful to create postcards, wall art posters, photos from the past, and more.
