Granite Desktop Promo - AE Project VH-39160910: 3D mockup project that creates videos of themes, website online service, application promos for the design of UI/UX, and development of websites.

It features eight simple and clean scenes in minimalist design, featuring black 3D pre-rendered iMac models as well as a variety of compositions that include text examples that you can alter.

Each video showcases all web page views and demonstrates the layout and usability of important tools and sections. The animated text plates keep the attention of your visitors and reveal the advantages of your website. You can easily alter your text or even delete titles if you do not need the texts.

The original style of this template is the most effective method to advertise your site! It is designed in a realistic 3D to draw more attention to your website and the display. Ideal for promotion of websites, landing pages, or display (if you have to).

Granite Desktop Promo is the template that can be used to demonstrate advertising services, applications as well as websites, and their user interfaces on the desktop. The placeholders can be used to display videos, screenshots, and any other animation.
