**Unreal Engine - Environments Stylized winter city environment (Engine Version 5.1-5.2):** The environment package offers high-quality modular assets and props tailored for constructing a stylized Christmas winter city environment. Additionally, it includes winter nature assets such as stylized landscapes, pine trees, rocks, and cliffs. With 318 unique meshes, collision, and LODs support, developers can create immersive environments efficiently.

Texture resolutions range from 4096x4096 to 1024x1024, ensuring visual fidelity across platforms. The package is supported on Windows development platforms.
