Winsoft Crypto v1.4 for Delphi & CB 7-12 Athens Full Source
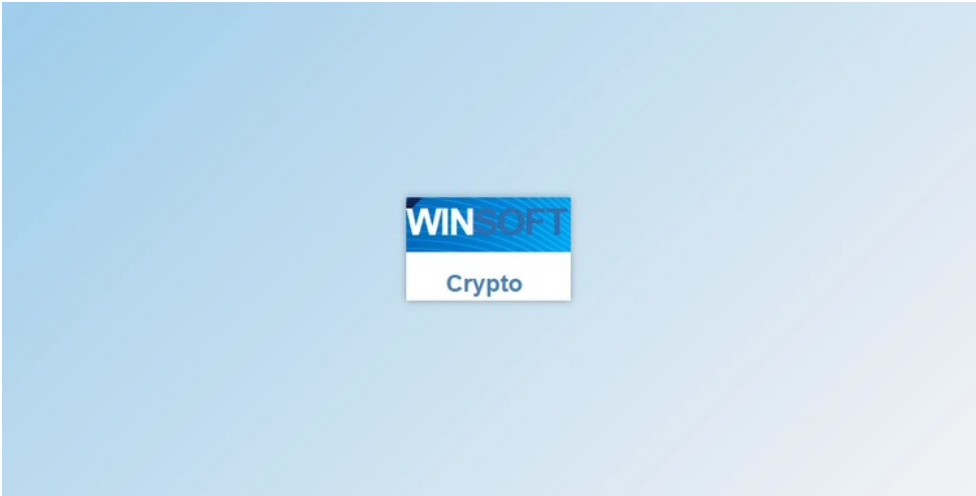

2025-01-07 11:33:57   label 我要反馈   下载页面

The is designed to work with the Windows Cryptography API: Next Generation (CNG), making it compatible with Delphi and C++Builder versions 7 through 12 and Lazarus 3.4. This library supports both 32-bit and 64-bit versions of Windows, allowing developers to easily create secure applications. When you register, you'll receive the source code, giving you full project control and flexibility. Plus, you can distribute your applications without worrying about any additional fees.

While the **Winsoft Crypto** library provides a robust framework for cryptographic tasks, it's important to note that it does not include specific implementations of cryptographic algorithms. This means you can integrate it into your projects as a

foundation for building your own cryptographic solutions tailored to your needs.

Key Features of **Winsoft Crypto** :

1. CNG Compatibility: Seamlessly integrates with the Windows Cryptography API: Next Generation for enhanced security.
2. Wide Support: Works with Delphi/C++Builder versions 7-12 and Lazarus 3.4, accommodating a variety of development environments.
3. Windows 32-bit and 64-bit Support: This provides flexibility for building applications that run on both 32-bit and 64-bit Windows systems.
4. Source Code Access: Registered users receive the source code, allowing for customization and deeper integration.
5. Royalty-Free Distribution: Distribute your applications without any licensing fees, making it cost-effective for developers.
