Unity Asset - Ultimate Ninja Anims v1.0:

Discover a comprehensive compilation of 248 ninja-themed animations, spanning combat, movement, stealth, acrobatics, assassination/paired finishers, and more.

This animation package seamlessly integrates with Unity's rendering pipelines. The default Built-in Render Pipeline offers a general-purpose rendering solution with limited customization options. Alternatively, the Universal Render Pipeline (URP) provides a quick and easily customizable Scriptable Render Pipeline, enabling the creation of optimized graphics across a diverse range of platforms. For those seeking cutting-edge, high-fidelity visuals on high-end platforms, the High Definition Render Pipeline (HDRP) is also supported.

Description:

Immerse your project in a realm of fluid movement and dynamic combat with this comprehensive animation pack. Featuring 8-directional locomotion (walk, run, sneak, and defensive drawn), hit reactions, throwing animations (smoke bomb, kunai), concentration sequences, jump sequences, a variety of acrobatics, and hiding animations (wall, short wall, under the table, clinging to the ceiling), this collection is a treasure trove of 248 meticulously crafted animations.

Explore the intricacies of combat with animations for blocking, dodging, attacks, transitional sequences, paired stealth assassinations, and paired combat finishers. The breakdown of animations is as follows:

- Acrobatic: 5
- Ceiling Hide: 11
- Chudan Stance: 55
- Crawl: 8
- Defensive Drawn: 29
