What is mCounter?

MotionVFX's "mCounter" is a product or plugin designed for use with video editing and motion graphics software, particularly Apple's Final Cut Pro X. MotionVFX is a well-known provider of plugins, templates, and effects for video editors and motion graphics artists.

mCounter appears to be a plugin or template designed to create counters and numeric animations within Final Cut Pro X projects. It allows video editors to easily add animated counters, timers, and numeric displays to their videos, which can be useful for a wide range of applications, such as creating countdowns, displaying statistics, or adding dynamic text elements to videos.
