FastFind v8.1 (27 Mar 2022) for Visual Studio 2017-2022 Pre-Activated

2024-12-29 08:30:29

Fast Find is this crap to be a visual studio extension that has the ability to offer the users and developers with a quick find in files search which is very quick and has the updates as soon as the user types. It should be added that it permits the user and developer in order to quickly jump into any document on the user solution without having to reach for the mouse. The Fast Find is considered to be extremely fast and has the ability to handle jobs with countless lines of code as well as thousands of documents easily and flexibly.

PureDev Software Fast Find other hand is considered to be a visual studio plugin which permits the user and developer in order to instantly open the alternative document and also to look at the text in the record. The Fast Find window has the ability to automatically update as soon as the user starts, and shows the user whatever is related and permits the user in order to jump immediately to any code. Fast Find is basically a visual studio plugin which has the ability to instantly find the texting and it kind of solution file for the user and it include a fast jump to or from the files of the header for the users on developers and has the ability to speed up the process of navigation around the huge projects. The user has the ability to change the binding Key by going into the visual studio tool menu easily.
