

Unity Asset - Game Creator v1.1.16

2025-02-10 16:50:33 label 我要反馈 下载页面

Unity Asset - Game Creator v1.1.16: Game Creator is a comprehensive tools suite designed to kickstart your game development journey in just minutes. It empowers artists, designers, and programmers with the tools to create games effortlessly without writing a single line of code.

MODULES

Game Creator offers a growing number of modules to take your game to the next level by extending and adding new features:

- Inventory
- Dialogue
- Quests
- Stats
- Behavior
- Shooter
- Melee
- Traversal

COMPATIBILITY

- **Platforms:** Game Creator is fully compatible with Windows, MacOS, and Linux, as well as Android and iOS platforms. The proper SDK also supports VR headsets.
- **Unity:** Game Creator is compatible with Unity Personal, Plus, and Pro, requiring Unity 2019.4 or newer.
- **Visual Scripting:** Utilize powerful high-level instructions that feel like cheating. They're so easy to use. Actions are executed from top to bottom, while Triggers allow you to react to events by executing corresponding Actions. Conditions enable you to execute Actions based on specific conditions.
- **Characters:** Creating a character is as simple as two clicks away. Add your custom 3D model with just one more click, and you're ready. Game Creator supports multiple control schemas, including WASD, Point & Click, Follow Pointer, and Side-Scroll.
- **Cameras:** Set up cinematic scenes effortlessly using multiple camera shots and transition between them at runtime with an Action. Choose from various camera types, including dolly cameras, fixed position cameras, shoulder cameras, animated cameras, and more!
- **Complete Save/Load System:** Game Creator includes a comprehensive Save & Load system that automatically tracks essential game data. Saving the game is as easy as executing a simple Save Game action while loading a game is just a matter of using the Load Game action.
- **Variables:** Keep track of your game's state with a complete Variable system, including Global Variables, Local Variables, and List Variables.
- **Module Manager:** Seamlessly install and manage modules designed to extend Game Creator's functionalities.
- **Game Creator Hub:** Access many free community-made Actions, Conditions, and Triggers through the Game Creator Hub. Additionally, programmers can contribute by uploading custom extensions.
