Wing FTP Server Corporate v8.2.1 for Win x64 & Linux & macOS Multilingual

2026-07-26 13:07:07

Wing FTP Server Corporate is a versatile and user-friendly FTP server software available for Windows, Linux, and Mac OS. It supports multiple file transfer protocols, including FTP, FTPS, SFTP, HTTP, and HTTPS, offering clients flexibility in connecting to the server. With its intuitive web-based interface, administrators can efficiently manage the server from anywhere, ensuring seamless operation and real-time monitoring of server performance and online sessions, with email notifications for various events.

The software boasts advanced features such as a web client for convenient file access and sharing via browsers and support for iOS and Android apps for mobile FTP file management. **Wing FTP Server Corporate** offers robust event management functionality, enabling Lua script execution, email notifications, and integration with third-party programs. High availability clustering through Wing Gateway provides a simple load-balancing solution, enhancing scalability and reliability.

Furthermore, provides extensive security features, including database storage and LDAP authentication, weblink and upload link sharing, virtual directories, and comprehensive audit and reporting capabilities. These features make Wing FTP Server Corporate a complete and efficient solution for secure file transfer and server administration needs, catering to businesses of all sizes across various industries.

Key Features of **Wing FTP Server Corporate** :

1. Versatile support for multiple file transfer protocols, including FTP, FTPS, SFTP, HTTP, and HTTPS
