Environmentally Eco-friendly & Sustainable Energy - AE Project 8785082: This template intro is ideal for companies that follow an Environmentally Eco-Conscious Production Process (reducing CO2 emissions), or if your business produces or sells Green Sustainable Power Products. It also cares about minimizing the environmental impact (global warming), and plastic waste. This video can be used as an opening video for web blogs and tv-shows about world environmental stability, alternative electricity systems (eolic winds turbines - solar panel - led lighting or electric car), and natural recourses protection.

- Choose from "World map" and "Streetscape"
- Simple color selections
- Modular structure. You can enter text, images, or video behind the map/flyer. (eg. (eg.
- After Effects FullHD project compatible with CS4 & all other CC versions
- No plugins are required
- Extended Video Tutorial & Short Written Help File included
